

Director of Fundraising

Barker College

Founded 120 years ago, Barker College is one of Australia's leading Christian independent schools, offering a diversity of academic and extra-curricular options to almost 2,000 boys and girls in a spacious northern Sydney setting. Recognising strong existing support for the school from its community, Barker College has created this new role to build upon the innate philanthropy of their community.

Reporting to an enthusiastic Headmaster and a supportive Foundation, your purpose is to affirm the values of this community by inculcating an awareness of the need for philanthropic support, and to create programs which enable donors to become integral participants in the continuing development of the School.

This challenging role provides a superb opportunity to make your mark by developing a comprehensive suite of fundraising programs - major gifts, bequests, annual giving, scholarships - identifying and connecting with key stakeholders, and following through to doing the ask.

If you are a talented all-rounder, with the ability to focus on measurable results, please email your application or telephone Philip Mayers in strict confidence.
